

WinCT-Pipette Software (CD-ROM Discontinuation Notice)

Thank you very much for purchasing the A&D Pipette Accuracy Tester Kit.

We would like to inform you that the WinCT-Pipette CD-ROM, which had been included as a standard accessory with this product, will no longer be supplied.

Since the launch of this product, Internet availability and related user environments have improved significantly. As a result, we have decided to discontinue the inclusion of the CD-ROM.

The latest version of the software is always available on our website and can be downloaded at any time. Please feel free to download and use the software from the link below.

Software Download:
